

INSYS Therapeutics, Inc. Consultant Meetings for SUBSYS®

Objective:

Gain insight and consultation on the perception of SUBSYS and the motivation to prescribe SUBSYS when comparing a cohort of early adopters and a cohort of those who have limited or no experience with the product. Questions that need to be answered:

- Are there overall perception differences between the groups and what is driving them?
- Are there environmental differences (demographic, coverage, etc)?
- Has extent of exposure to SUBSYS clinical information or Savings Program contributed to differences in prescribing?
- What was (were) the driving factor(s) to begin prescribing SUBSYS?
- Are there specific barriers that were overcome for some and not others?
- Do the non-prescribers have objections or obstacles that are unique to them that have not been addressed through the existing marketing programs and communications?

Rationale:

Since the launch of SUBSY, the growth of the product has been heavily stratified between early adopters and those who have limited or no experience. Though the growth of the number of new prescribers has been steadily increasing, the growth in overall prescriptions remains somewhat dependent on the growth within a given prescribers practice. To achieve a more sustainable growth trend, an additional effort is being initiated to increase the number of prescribers within the target list. This consultant meeting is being executed to better understand what prompted the change to begin using SUBSYS for those who are prescribing. Additionally, our goal is to identify how to increase the impact of what has been shown to be successful. Equally, we hope to gain insight into what communications, channels, or strategies may be useful going forward in removing obstacles that remain for those who have not prescribed.

Agenda:

Friday		
6:00 – 9:00 pm	Dinner Reception	Optional for all participants upon arrival
Saturday		
8:00 – 8:15am	Introductions and Meeting Objectives	SciMedica Group Moderator
8:15-8:30 am	INSYS Therapeutics, Inc. Company Overview	Michael Babich, John Kapoor, PhD
8:30-9:15 am	Market Landscape	Matthew Napoletano
9:15-10:15 am	Technology/Formulation	Larry Dillaha, MD Venkat Goskanda, PhD
10:15-10:30 am	Panel Discussion and Q & A	All/General Session
10:30-10:45 am	Break	
10:45-11:30am	Pivotal Studies	Larry Dillaha, MD, Neha Parikh

Departures will take place on Saturday beginning at the conclusion of the meeting. Lodging will be provided on Saturday evening only for those who are not able to schedule a flight out on Saturday.

Recruitment & Logistics

Attendees: The goal is to have approximately 20 Consultants attend the meeting. The attendance will be an equal split into two cohorts. Targeted Consultants will have the following credentials:

- All participants will need to have significant clinical experience in Pain Management and the ROO market
- ½ of the participants will need to have significant experience using SUBSYS
- ½ of the participants will need to have limited (or no) experience with SUBSYS

Additional KOL(s) will also be invited to serve as a chairperson to help facilitate discussion. Propose one for each sub-group.

Dates	Locations
August 23-24 2013	Chicago Illinois

Consultant Honoraria:

Consultants: \$1,500 each

Chairperson: \$2,500 each
